

Military Line

Balle Precision

7,62 mm x 51

- Service cartridge as per STANAG 2310
- NATO Qualified, Design: AC/116-6A
- Maximum function reliability
- Superb precision

We serve your mission.

Article number	270004
Purpose	Soft targets
Qualification/certification	S-CAT 11500 and S-CAT 17500
Standards	NATO-qualified
Environment impact	Standard
Type of bullet	FMJ
Bullet material	Lead, Steel
Primer	Berdan
Case material	Brass
Bullet weight	147,0 gr
Cartridge weight	369,0 gr
Powder charge	45,0 gr
Temperature range	-65 to +126 °F
Bullet energy	E24 ≥ 2756 J (OTAN)
Velocity	V24 ≥ 825 m/s (± 15 m/s)
Ballistic coefficient	BC 0,181
Gas Pressure _{max}	≤ 445 Mpa (NATO)
Precision	Sx-Sy ≤ 8 inch to 600 yds
Features	

Subjects to change without notice. Stand: June 2020
